AURORA

Corsiero was developed with the aim of providing a pleasant cloud effect and alignment of the spine.

Thanks to its Memory Risorsa, of vegetal origin, it offers support and thrust, especially on the most protruding and heavy parts of the body profile, promotes microcirculation and attenuates pressure points, ensuring correct posture throughout the rest.

Memory Breeze is a revolutionary product, capable of breathing 50 times more than traditional Memory.

This allows us to offer a fresh and ventilated support surface, ensuring that the deep sleep phase is not disturbed by high temperatures and excessive sweating.

Corsiero is available in two versions: medium and high bearing capacity.

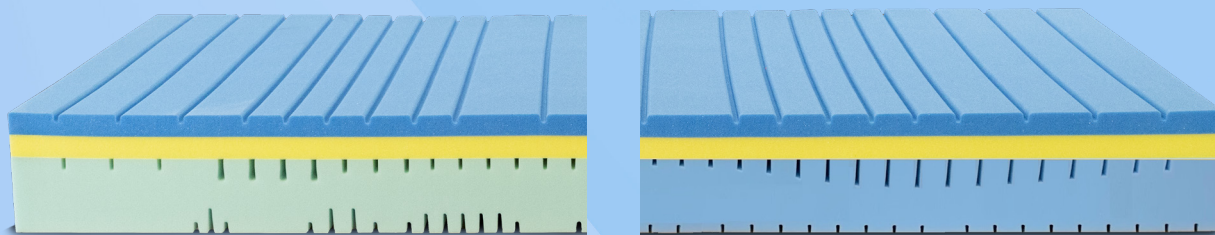

MATERIALS:

The Corsiero mattress cover is available in the following variants: Outlast, Tencel e Seta.

TECHNOLOGY:

- 4 cm Memory Breeze
- 4 cm Memory Risorsa
- 14 cm Acquafoam
