Breathable

Hypoallergenic

AURORA

Gold was developed to offer the best elasticity and breathability performance, similar to that of natural latex, but with greater sustainability.

The selection of materials, all with a high degree of breathability, offers a rest plan that is always fresh and dry.

The Breeze Hr on the use side offers 50 times greater breathability than classic memory, as well as facilitating nighttime movements that can disturb sleep.

The combination of Breeze and EcoLympha, plus the two soaps inserted in the shoulder area, create a perfectly ergonomic mattress, with very high resilience, which welcomes the body and eliminates joint compressions.

MATERIALS:

The Gold mattress cover is made of Tencel, a fiber extracted directly from the eucalyptus tree, thanks to its freshness it is ideal for those looking for a dry and always fresh fabric. It also offers a natural hypoallergenic, anti mite and anti bacterial action.

TECHNOLOGY:

- 4 cm Breeze HR
- 2 cm X-Carbon
- 12 cm EcoLympha
- 4 cm X-Carbon
