Hypoallergenic

AURORA

The Marte mattress has been developed to provide a high degree of anatomy, elasticity. Its structure is entirely in Acquafoam with sustained bearing capacity, therefore it is equipped with Flip technology, being able to turn it upside down as well as rotate it, and making it possible to use it on four sides.

Its structure is shaped with differentiated bearing areas, both longitudinal and transversal, in order to increase transpiration and make the sleeping surface pleasantly elastic.

Equipped with a removable and washable cover in Tencel fabric, it offers hygiene, freshness always in contact with products of natural origin.

MATERIALS:

The Marte mattress cover is made of Tencel, a fiber extracted directly from the eucalyptus tree, thanks to its freshness it is ideal for those looking for a fabric that is soft to the touch, dry and always fresh. It also offers a natural hypoallergenic, anti mite and anti bacterial action.

TECHNOLOGY:

- 18 cm Acquafoam
