Hypoallergenic

AURORA

Trial is a mattress with a progressive three-layer structure.

It is able to provide optimal comfort and support following the curves of the body thanks to the combination of Memory Breeze.

Its excellent breathability prevents humidity from stagnating.

This improves the quality of the user's sleep for various reasons.

The main one is that by reducing night sweats, the deep sleep phase is more stable and less agitated, this therefore avoids sudden awakenings, making sleep more restful.

The Trial mattress is a mattress with firm support.

The Trial mattress cover is in Tencel, a fiber extracted directly from the eucalyptus tree, thanks to its freshness it is ideal for those looking for a dry and always fresh fabric. It also offers a natural hypoallergenic, antimite and antibacterial action.

MATERIALS:

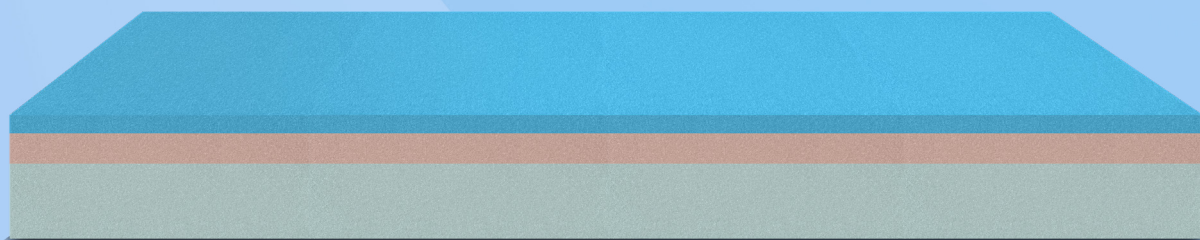

The Trial mattress cover is made of Tencel, a fiber extracted directly from the eucalyptus tree, thanks to its freshness it is ideal for those looking for a dry and always fresh fabric.

It also offers a natural hypoallergenic, antimite and antibacterial action.
