AURORA

Venere is a mattress with a progressive three layer structure. The Memory Gaia that welcomes the body in an optimal way. The comfort is supported but delicate at the same time. The Memory Gaia is foamed with the help of water, soy and ancient essential oils. This allows you to sleep in contact with products of natural origin, which also help in sleep conciliation, stimulating the release of melatonin. Its structure is worked with seven zones of differentiated bearing capacity with moderate support, to guarantee a pleasant softness and cloud effect. The structure is designed to be welcoming especially in the shoulder area, reducing joint compressions that can lead to unpleasant pain or tingling.

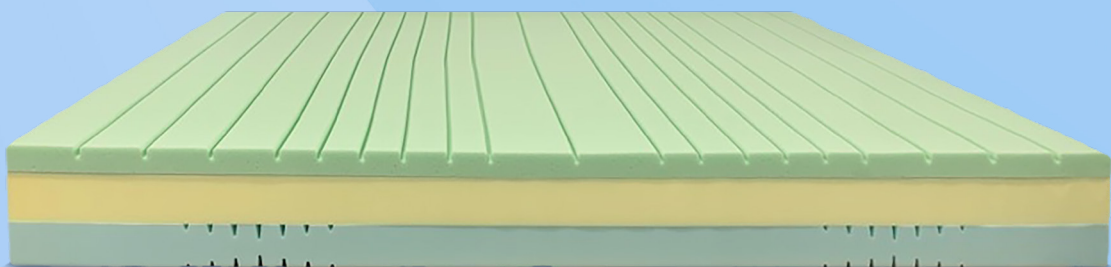

MATERIALS:

The cover of the Venere mattress in Tencel 37°, a fabric extracted directly from eucalyptus, for a fresh and natural sleep. Equipped with 37 degree technology, to keep the temperature constant, avoiding agitating the rest due to excessive cold or heat.

TECHNOLOGY:

- 4 cm Memory Gaia
- 8 cm Ecocell
- 8 cm Acquafoam
